

Duet

Mirrors of Love

Directions for working with Duet Cards kit:

Duet is a unique set of cards offering a deep and multifaceted mirror with which we can reflect on various aspects of the relationships we create in our life.

Duet Cards kit includes 96 beautifully illustrated situation cards and 96 insight cards.

The illustrated cards portray various situations symbolizing feelings, behaviors and thinking patterns common in relationships.

Some of the pictures portray masculine figures while others portray feminine figures. One should refer to any figure as an image of an action or pattern and not necessarily gender-related. For example, a man can identify with a pattern or an action portrayed using a feminine figure, and vice versa.

The cards reflect various relationships: myself and I, my body and I, my work and I, my family and I, etc. The cards are not necessarily designed for examining love relationships, yet they can be used to investigate love relationships as effectively as they can be used to investigate other types of relationships.

Suggestions for projective work with Duet Cards kit:

1. Think about a certain subject or situation concerning a specific person about whom you wish to receive a message or clarification.
2. Shuffle both card decks separately while focusing on your intent, and then place each pack face-down on the table.
3. Intuitively choose one card from each deck – while looking only at the cards' reverse side.
4. Examine the situation-card you have chosen. Observe which feelings, thoughts and meanings awaken inside of you in relation to this card.
5. Examine the insight-card you have chosen, and repeat stage 4.
6. Try to find the association between the insight and the situation. How does it relate to your intent? What message does this combination convey to you?

It is important to note that sometimes the association between the picture and the word will reveal a conflict. Sometimes the word or picture will point out a concern or a need. It is vital that each participant define the significance that the association between word and picture bears to him or her.
